

# Moussa Diallo lyrics - Out of Tune

## Juju Dancing

Juju dancing, voodoo in the night, juju dancing

Juju dancing, voodoo in the night, juju dancing

Come on talk to me

Come on walk with me

Sugar and spices

We'll walk on water

Come on dance with me

Come on trance with me

Sugar and spices

We'll dance on fire

Juju dancing, voodoo in the night, juju dancing

Juju dancing, voodoo in the night, juju dancing

Come on sing with me

Come on swing with me

Sugar and spices

We'll climb the highest mountain

Come on share my bread

Come on drink my wine

Sugar and spices

We'll fly the skies

Juju dancing, voodoo in the night, juju dancing

Juju dancing, voodoo in the night, juju dancing

## HIGHER MEANING

*Inspired by 'The Hundred Thousand Songs of Milarepa'*

We need higher meaning, we need higher meaning

Say higher meaning, we need higher meaning

Superior men need it

Without it

Even though they are rich and famous

Their lives have but little meaning

Average men need it

Without it

Though they are strong and healthy

Their lives have but little meaning

Inferior men need it

Without it

Though they work hard to survive

Their lives have but little meaning

I said higher, we need to get a little higher

We need to get a little higher

We need higher meaning, we need higher meaning

Say higher meaning, we need higher meaning

Superior women need it  
Without it  
Though they look pretty and divine  
Their lives have but little meaning

Average women need it  
Without it  
Even though they're clever  
Their lives have but little meaning

Inferior women need it  
Without it  
Though they are cunning  
Their lives have but little meaning

I say higher, we need to get a little higher  
We need to get a little higher

We need higher meaning, say higher meaning  
We need higher meaning, say higher meaning

Without it  
All one does, lacks meaning and purpose

## **USUAL LIFE**

The flames are getting higher  
You're burning down your bridges, baby  
The moon is turning gray

Sending shivers down my spine

Like lightning in the rain

Rushing through my veins

Neptune in your dream

Is serving coffee with no cream

You have forgotten why you're unhappy

You're right back to living the usual life

Where is your head, what's in your heart

You're a bad example of what you're preaching

The sun can burn your skin

Like flowers can make you sing

If love is on your lips, baby

Put it right back into your heart

Frozen kisses have no taste

They make every word a waste

Mars in your stream

Is about to make a scene

You have forgotten why you're unhappy

You're right back to living the usual life

Where is your head, what's in your heart

You're a bad example of what you're preaching

I can't take it no more, I can't take it no more....

**U ARE HEAVEN**

U are heaven

My sweet heaven

I found heaven in U

I walked the roads of heartaches and pain

I've been left alone calling you in vain

Been burned and battered by the hope of love

Until my cries reached the heavens above

Now I sing with the birds every day

In my heart I know you're here to stay

You are my fountain of pure love and joy

You're filling the space that once was void

I was giving up when you came out of the blue

I found a friend when I had no clue

I wish every one could have a love like mine

So we can dance and drink this nectar sweet as wine

U are heaven

My sweet heaven

I found heaven in U

For gold and silver I will not trade

This garden of peace in my heart you made

By your side I know I'll thirst no more

For love is your very core

# WANNA TELL YOU SOMETHING

Thought I knew all about love  
But love has proved me wrong  
This feeling I have in my heart  
Is getting stronger by the second  
I'm looking out every minute  
Hoping to catch a glimpse of you  
And when I do see you sometimes  
Why do I get so confused

I wanna tell you something (something)  
But the words won't come my way now  
I wanna tell you something (something)  
I just don't know how to do it  
I think I love you baby (baby)  
But the words won't come my way now  
I wanna tell you something (something)  
I guess I'm feeling too much

I thought I had experience  
Now I dream just like a child  
Hoping an angel would whisper  
My hopes and dreams in your ears  
Far away, but you're still so near  
Sometimes I pretend you're here with me  
Tenderly wrapped in my arms  
Until I wake up feeling like  
I wanna tell you something (something)  
But the words won't come my way now

I wanna tell you something (something)  
I just don't know how to do it  
I think I love you baby (baby)  
But the words won't come my way now  
I wanna tell you something (something)  
I guess I'm feeling too much

## **WALKING**

I'm walking in the day  
Walking in the night  
Walking in my sleep  
Walking in my dreams  
I'm walking in circles  
Walking in squares  
Walking for ages  
Oh, walking the karma laws

Say I'm walking, walking, walking  
Say I'm walking  
I'm walking, walking, walking  
Still I'm walking  
I walk into your life  
For a little while  
Walking through a script  
Still in Maya's grip  
I'm walking searching for clues  
While I'm paying dues

I'm walking, don't know where to

Blinded by desire

Victimized, you're victimized, when you're blinded by your own pride

Victimized, you're victimized, when you hold on to your obsessions

Victimized, you're victimized, when your religion is not love

Victimized, victimized, when you see the truth and walk away

I'm walking with a reason

I'm walking with a plan

Walking with a feeling

I'm walking for my life

I'm walking to be free

I'm walking towards myself

I'm walking until I find you

## **WAIT HERE IN THE DARK**

I can lie to myself, but I can't hide from you

My eyes are wide open, but I can't see

The love you're giving every day

The tears I cry can't save me

The fears I carry, they just don't wanna leave

Yeah, I have ears, but I'm not listening to you

My head is aching and my heart is sore

Wait here in the dark

Wait here for the light to shine

Wait here in the dark

Wait here for the bell to ring

Please help me if I forget  
I don't wanna wake up with regrets  
My soul is yearning to be kissed by you  
I think I'm learning a little every day  
Hurt me with your love so I can feel  
I wanna bleed knowing that I'm loved by you  
Touch me, burn me with redemptions fire  
Crush me, dissolve me in your holy waters

Wait here in the dark  
Wait here for the light to shine  
Wait here in the dark  
Wait here for the bell to ring

## **MY SUPA SUPA**

My supa supa, my supa supa  
My supa supa, my supa supa  
The light in your eyes  
Melts me like ice  
Like a fish in the wata  
Your love's all that matta  
This place so romantic  
You look so fantastic  
I wanna take a chance  
Kiss you while we dance  
My supa supa, my sugar honey baby  
My supa supa, my sugar honey baby 2x

The phone is ringing  
My temperature starts rising  
Like a bird in the sky  
Your loving gets me high  
Baby lets go somewhere  
Catch the sunset out there  
Lets ride with this feeling  
Until we wake up in the morning

My supa supa, my sugar honey baby  
My supa supa, my sugar honey baby 2x

I wanna love you my baby  
Until the moon and the stars become one  
I wanna love all the time  
Until you become me and I become you  
My supa supa

Bumbala ba oh, bumbala, oh ya, bumbala ba,  
Bumbala ba oh, bumbala, oh ya, bumbala ba,

Woye, woye, woye, woye, bumbala ba  
Woye, woye, woye, woye, bumbala ba

Bumbala ba oh, bumbala, oh ya, bumbala ba,  
Bumbala ba oh, bumbala, oh ya, bumbala ba,

My supa supa, my sugar honey baby  
My supa supa, my sugar honey baby...

## **RAISE THE ROOF**

Raise the roof, we're gonna raise the roof over your head

Raise the roof, we're gonna raise the roof over your head

Now some people don't really wanna get on

Standing there, holding back on the good thing

If you wanna be cool, you better move along

Don't try to understand, just go ahead and sing

Raise the roof, we're gonna raise the roof over your head

Raise the roof, we're gonna raise the roof over your head

Who is on my side, say who

Who is on my side, who

Who is on my side, say who

Now who is on my side

The hills, the sea and the earth will dance

Brothers and sisters stay in trance

Before too long we're gonna raise the roof

And take you on board on the mother ship

Come on, come on

Who is on my side, say who

Now who is on my side, say who

Now...

Raise the roof, we're gonna raise the roof over your head

Raise the roof, we're gonna raise the roof over your head

Wanna make you happy before you have a reason

'Cause happiness is trying to take you on

I'm afraid you're still thinking about the situation

By what strange miracle do you often not smile

Come on ...

Raise the roof, we're gonna raise the roof over your head

Raise the roof, we're gonna raise the roof over your head

Watch the sky, see the stars

Hold your breath, listen to the ocean

From the trees you eat the fruit

Mother earth sees you grow, then takes you back

Reconnecting

A child becomes a man, for spirit must grow

Spiritualize

Rise

Raise the roof, we're gonna raise the roof over your head

Raise the roof, we're gonna raise the roof over your head

Sweet revelation for all to see

Rise, just rise ....

## **SONGS OUT OF TUNE**

I heard a song on the radio

A song like many other songs

I can't get any satisfaction

It's like eating love out of a can

Strange how the pleasure we seek

Is a part of our pain

A hungry soul is a desperate man

Gotta find a reason to be

Songs out of tune

Another cry in the sky

Songs out of tune

If only I could fly

The chains around your neck

You are wearing like they were jewels

The make-up is running down your face

No one needs to know how you feel

They may make a star of you today

By tomorrow no one knows you anymore

Fake emotions, face the crowd

The truth must wait while we sing...

Songs out of tune

Another cry in the sky

Songs out of tune

If only I could fly

Songs out of tune

Another cloud in the sky

Songs out of tune

Waiting for love, waiting for love

## Zanzibar

Ooh Zanzibar, a place you can't resist

Ooh Zanzibar; cool, cool vibrations

The first time I got there, didn't know what to expect

As soon as we landed it was here from the start

Friendly faces everywhere, sweet dreams from the sea

All said welcome to paradise

We walked the streets of Stonetown

Enjoyed a drink at Archipelago

Right across the Livingstone

A full moon party was due for the night

Ooh Zanzibar, everybody you must see

A jewel in the sea, a place you can't resist

Ooh Zanzibar, everybody you got to see

A jewel in the sea; cool, cool vibrations

With Adel and the gang we danced all night long  
The moon was light and cheery, it was a perfect night  
Then right there in the crowd three shining faces  
Three Mandingo sisters singing with me

Maninda don gili dalaw maninda

We walked the streets of Stonetown  
Enjoyed a drink at Archeipelago  
Right across the Livingstone  
A full moon party was due for the night

Ooh Zanzibar, everybody you must see  
A jewel in the sea, a place you can't resist  
Ooh Zanzibar, everybody you got to see  
A jewel in the sea; cool, cool vibrations

Oh, Oh Yalala, celebrate tonight  
Oh, Oh Yalala, celebrate tonight
